General Information

The Port of Helsingborg (Helsingborgs Hamn AB, 556024-0979) is acting as the Port Authority in the port area of Helsingborg. The company is offering stevedoring and terminal services in its area of activity. Hereafter, the Port of Helsingborg will be referred to its full name or the Port.

Unless otherwise agreed and confirmed in writing by the Port of Helsingborg, this Tariff applies to all vessel traffic and goods movements to and from the port area. The same will be applied in full to the Port's services.

All prices are in Swedish Krona (SEK) and are subject to VAT where applicable.

The standard terms of payment are 30 days after the date of invoice. After that, interest is charged in accordance with the Swedish Interest Act.

The party that makes the reservation with the Port of Helsingborg is liable for payment regardless of whether this party acts as an agent for another customer.

The Port of Helsingborg cannot be held accountable for compensation for damages or expenses arising from a lockout, strike, blockade, boycott or other circumstances beyond the Port's control.

The ordinary working time is Monday to Friday, 7 am - 4 pm, holidays excluded.

Waiting time will be charged by the hour.

For overtime work on the same workday, make reservations at the latest by 10 am.

For overtime work on Saturdays, Sundays, and holidays, make reservations at the latest by 10 am on the last regular workday before the overtime.

To avoid overtime charges, make cancellations by 2 pm on weekdays if overtime is required on the same day. For overtime on Saturdays, Sundays, or public holidays, cancellations must be made by 10 am on the last weekday before the overtime.

Overtime must be agreed upon in advance. Lashing is not included in any charges.

The guaranteed time is paid at the rate of 8 hours per shift. If scheduled work ends in less than 8 hours, hourly wages are payable for the remaining time up to 8 hours, excluding overtime, which is payable for the entire 8 hours.

Statutory holidays include Easter's, Whitsun's, Midsummer's, Christmas's, and New Year's Eve. May 1st (Labour Day) is a non-working day.

Surcharges by the hour are listed below:

Holidays	12 am - 7 am	+ 250 %

Notification of arrival, vessels

Prior to the call, the shipping line, vessel or agent needs to provide advance notification of the vessel to Helsingborg Port Control (HPC). The advance notification is done through the Notification of Arrival Form on our website or by email. The advance notification must be provided at least 24 hours prior to the estimated time of arrival of the vessel. The Port only accept shorter notification times under special circumstances.

Port Security fee

The Port Security Fees cover part of the costs of enforcing and maintaining the International Ship and Port Facility Security (ISPS) Code and the West harbour status as a Vital installation.

The Port Security Fee is charged through the same invoice as the Cargo- and Ship fee. For ships without cargo, the Port Security Fee is levied immediately.

ISPS and area of Vital Installation - Special rules apply to access the Port

ISPS regulations cover the entire Port of Helsingborg, and parts of the Port are designated as a Vital Installation. Therefore, special rules apply to access the Port area. All visitors, such as drivers, contractors, and crew members, must apply for permits in advance and provide proof of identity and purpose of visit.

Access Card can be issued to drivers who have recurring business at The Port for a fee:

Access card	SEK 400 / Card
Annual fee	SEK 150 / Card / Year
Uncollected card	SEK 600 / Card
Lost / damaged card	SEK 1,000 / Card

Apply for Access Card at www.port.helsingborg.se/en/access-card-to-central-gate/

Terms and conditions

The first time a vessel calls The Port of Helsingborg, a copy of the International Clinic Certificate and a DOS (Declaration of Security) must be submitted to Helsingborg Port Control (HPC) no later than the time of the vessel's arrival. This can be submitted to the Harbour Master, who is also the Port Facility Security Officer (PFSO) on duty.

If information about the gross tonnage (GT) is missing, the fees are determined on a case-by-case basis. Fees according to this rate, are payable within The Port of Helsingborg, including the Bulk Port and Råå Port.

Vessels that are not subject to a collective agreement or similar arrangement for their employees may not issue a call at The Port of Helsingborg. Collective agreements refer to ITF agreements or equivalent or proof of contract negotiations.

Order and safety within The Port Area – above any applicable regulations according to Swedish law – are regulated by The Port Regulations for The City of Helsingborg, Safety Regulations for The Port of Helsingborg, rules and regulations according to the International Ship and Port Security Code (ISPS) code, Shipping Protection Act and Operating Regulations for The Port of Helsingborg.

The Port of Helsingborg is a member of the Swedish Ports and Stevedores Association and is subject to the conditions issued by the association's terms for terminal operations from 1989.

Other terms and conditions are regulated by the General Terms and Conditions for the Stevedoring Operations 2011.

Permits and regulations

A range of documents regulates the operations in the Port of Helsingborg.

The basis is the Port Ordinance for the City of Helsingborg, passed by the decision of the City Council and the County Administrative Board in 2012. In addition, several governing documents have been approved by the Port Authority. Find all the documents at:

www.port.helsingborg.se/en/permits-and-regulations/

Waste and environment

Dues are payable for all vessels unless the Swedish Maritime Administration has granted a special exemption for a specific vessel not depositing waste. Vessels may deposit waste that is generated on the ship without any additional fees beyond the general dues listed in the Port of Helsingborg waste management plan.

Sludge may not be deposited on the City Pier.

Port Dues

Port Dues for vessels, SEK per GT

Tankers / Container and other vessels	6.85
Cruise ships / Passenger ship	6.85
Alternatively, SEK per passenger	165.00

The option that generates the highest total amount applies.

Additional fees after more than four days in the Port

SEK per commenced metre of LOA (non-residential area) or part thereof and period of 7 days or part thereof	100.00
--	--------

Port dues for oil tankers

Port dues for oil tankers shall be established according to the gross tonnage that appears on the applicable tonnage certificate. Deductions are made for the total tonnage of segregated ballast tanks and other spaces in the double bottom or double hull that are not used as cargo space.

The ship's owner or agent shall present the Port Traffic Office with a certificate that shows the tonnage of the deductible spaces; this must be issued by authorities in the vessel's country of registration. The Port Traffic Office must receive the certificate before the vessel departs.

Scrubber waste

Scrubber waste deposited by vessels is charged the actual cost based on the amount and content of the waste.

Sludge

The Environmental Fee includes a deposit of 10 cubic meters of sludge per call. Additional sludge that exceeds 10 cubic meters will be charged per cubic meter, plus a 15 percent administration fee.

Additional sludge that exceeds 10 cubic meters	2075.00
--	---------

Environmental discounts

Vessels with a minimum Environmental Ship Index (ESI) score of 30 points or at least Clean Shipping Index (CSI)-class 4 will be granted a 10 percent discount on port dues, based on gross tonnage (GT). Vessels that bunker a minimum of 30 percent fossil-free fuel of their annual consumption get an additional 10 percent discount.

The purpose of the new environmental discount is to accelerate the transition to more climate-neutral shipping and is therefore planned to last a number of years. The discount is given retroactively upon receipt of documentation showing:

- The amount of fossil-free fuel bunkered (X thousand tonnes per year)
- The vessel's total annual consumption of bunkered fuel (Y thousand tonnes per year).

If you have any questions regarding environmental discounts, contact smak@port.helsingborg.se

Waste and environmental fees

The environmental fee is based on sorted waste from arriving vessels, which has been reported in the port call statement; waste that is not correctly sorted will be subject to an additional fee.

All vessels, SEK per GT

Sorted waste from ship and max 10 m ³ sludge included	0.75
Alternatively, SEK per call	25 000

Additional fees after more than 4 days in the Port

SEK per commenced metre of LOA (non-residential area) or part thereof and period of 7 days or part thereof	4.00

Emergency Energy Surcharge (EES)

The Port reserves the right to apply an EES in response to significant changes in energy costs affecting terminal operations.

The EES is introduced to reflect increased operational energy costs, primarily related to the use of renewable fuels such as HVO in terminal equipment, and to ensure continued efficient and reliable port services.

The EES is applicable to all container units handled over quay, i.e. containers loaded to or discharged from vessels.

The EES is variable and adjusted monthly based on the average market price of HVO (Neste MY Renewable Diesel) during the previous month. The level of the surcharge is determined according to the table below.

The Port continuously monitors developments in the energy market and reserves the right to adjust or withdraw the surcharge depending on market conditions.

See updates at: www.port.helsingborg.se/en/tariff/
