Seagoing ships carrying mostly liquid bulk and/or dry bulk**Oil tankers, other tankers and bulkers**General information

If under A to C and/or a price category a Port User is eligible for several discounts/rebates, the discounts/rebates will be calculated based on the relevant subtotal in the sequence as stated below (see 2.1.3 Port GTC).

A. Port FeeGeneral information

Depending on the GT of the ship different port fees/charges are charged for the use of the water areas of the Port of Hamburg by the ships listed below. The port fee consists of a GT component and an environmental component. The port fees/charges cover a period of up to 120 hours (equivalent to 5 days) counted from the time the ship enters the port area up until it leaves the port area.

The notification rules defined in the Port GTC apply. Non-compliance entails penalties as set forth in item D of this Schedule of Fees and Charges.

Unless the ship is 100% exempted a **minimum fee** is due for each chargeable call at the port of € / call **43.56**

If under A to C and/or a price category a Port User is eligible for several discounts/rebates, the discounts/rebates will be calculated based on the relevant subtotal in the sequence as stated below (see 2.1.3 Port GTC).

A. Port FeeGeneral information

Depending on the GT of the ship different port fees/charges are charged for the use of the water areas of the Port of Hamburg by the ships listed below. The port fee consists of a GT component and an environmental component. The port fees/charges cover a period of up to 120 hours (equivalent to 5 days) counted from the time the ship enters the port area up until it leaves the port area.

The notification rules defined in the Port GTC apply. Non-compliance entails penalties as set forth in item D of this Schedule of Fees and Charges.

Unless the ship is 100% exempted a **minimum fee** is due for each chargeable call at the port of

€ / call **43.56**

General information

If under A to C and/or a price category a Port User is eligible for several discounts/rebates, the discounts/rebates will be calculated based on the relevant subtotal in the sequence as stated below (see 2.1.3 Port GTC).

A. Port Fee

General information

Depending on the shipping area different port fees/charges are charged for the use of the water areas of the Port of Hamburg by the ships listed below. The port fees/charges are calculated based on the GT and the environmental friendliness of the ship. The port fees/charges cover a period of use of up to 120 hours (equivalent to 5 days) per call, counted from the time the ship enters the port area up until it leaves the port area. In the special case of "dredgers", Port Users have the additional option to choose between a tariff per call and a tariff that covers any number of calls in the respective tariff period, whereby the period of use per call must not exceed 120 hours.

The notification rules defined in the Port GTC apply. Non-compliance entails penalties as set forth in item D of this Schedule of Fees and Charges.

Unless the ship is 100% exempted a **minimum fee** is due for each chargeable call at the port of € / call **43.56**
